 - 2. Hold public meetings in accessible locations.
 - 3. Provide alternate forms of communication if requested.
 - 4. Make programs or services provided to the public accessible; and
 - 5. Increase general awareness of and sensitivity to people with disabilities.
- B. This section is applicable to all Projects that require design or construction of a capital improvement. The Americans with Disabilities Act, 28 CFR 35.151 (ADA), requires that every new facility to be constructed on City owned property or within or upon a facility operated by or on behalf of the City, to fully comply with the ADA. Alterations to an existing facility must also comply with the ADA, and an accessible path of travel to altered elements as well as to certain other features serving the altered element, such as drinking fountains, restrooms and the like, are also required to be made accessible to the extent feasible. Neighborhood Matching Fund Grant recipients are responsible for

determining and conforming to the applicable provisions of the ADA for any feature or element to be located within a City facility or upon City property. Work which does not conform to the requirements of the ADA may be rejected by the City, in which event the recipients shall be fully responsible for any corrective work, or may in the discretion of the City be required to remove any such work and to restore the City property to its previous condition.

Section 504: Title to Property Supplied or Funded

Whenever Neighborhood Matching Funds of \$500.00 or more are used towards the purchase of personal property, ownership of such property shall rest with the City and such property shall be considered to be on loan to the Recipients. Upon the expiration of this Agreement all property purchased or constructed with Neighborhood Matching funds shall be returned to the City via the administering department for use or disposal by the City under the City's surplus procedures. The City may choose to have the property remain with the Recipients beyond expiration of the Agreement when the property will continue to be used by the community or public. Unless specified otherwise in this Agreement, the following conditions apply to real and personal property used for the Project:

- A. Personal property loaned by private persons, State or Federal agencies, or the City, shall be returned to the owner. Property donated to the Project shall become the property of the City and shall be accepted by the City for its use or disposal, unless the donor specifies that the property is donated to a private entity or person.
- B. The use of City-owned or funded property shall only be used for the purposes set forth in the Agreement and the Neighborhood Organization shall be responsible for all maintenance, unless otherwise agreed.
- C. The Recipients shall be financially liable for loss, damage or disappearance of any City-owned or funded personal property or any damage to real property, and shall report any loss or damage to the Department immediately. The Neighborhood Organization remains responsible for all City-owned property until transferred to the control of the City or until the Neighborhood Organization is relieved of responsibility, in writing, by the City.
- D. The Neighborhood Organization shall provide permanent identification markings on all City-owned or funded properties acquired and shall maintain completed inventory records as required by the City. Cost reimbursement shall be contingent upon satisfactory compliance with these requirements.
- E. If the Project includes any improvements to City-owned real property (for example, landscaping or a play structure), at the completion of the Project, the City shall own the improvement, subject to the Neighborhood Organization's maintenance requirements under Section 104 and subject to the written acceptance of the department with jurisdiction and management over the real property. If the Project includes any improvements to privately-owned real property, ownership of the improvements may be determined by agreement between the Recipients, provided that the improvements must continue to be used for Project purposes or other public purposes approved by

the Department for such periods of time as determined by the Department. In its discretion, the Department may require written confirmation from the owner that the improvement shall remain in use for the public purpose.

Section 505: Creative Works and Visual Art on City Property

- A. The City shall not own the copyright of any copyrighted material created with funds under this Agreement. However, in consideration for the provision of Neighborhood Matching Funds to any artist or author under this Agreement, the City shall be granted a non-exclusive, irrevocable, unlimited, royalty-free license to use, reproduce, have access to, distribute, or otherwise use for public purpose any creative work produced by the artist or author, notwithstanding the existence of any copyright or trademark designation. This provision shall be included in any agreements with the artists or authors employed or contracted by the Neighborhood Organization or Fiscal Sponsor.
- B. All finished or unfinished documents and material prepared by Recipients with funds provided under this Agreement shall be available for inspection and copying by the City and the public.
- C. The City shall have unrestricted license and authority to publish, disclose, distribute and otherwise use, in whole or in part, any reports, data, or other materials prepared under this Agreement.
- D. If the Project includes the installation on City property or the integration into City property of any work of visual art, prior to the installation or integration, the Recipients must deliver to the Department an executed waiver of the creator's rights under the Visual Artists Right Act of 1990 regarding the work of visual art, in a form acceptable to the City.

Section 506: Disclaimer Required

Unless specifically exempted by the Director, any documents, whether in a printed, digital or video medium, which are prepared by the Neighborhood Organization to be made available to the public shall contain the following disclaimer:

This document has been funded in part by the Neighborhood Matching Fund Program of the Seattle Department of Neighborhoods. The information contained herein does not necessarily reflect the policies, plans, beliefs, conclusions, or ideas, of the City of Seattle. The City does not warrant the accuracy of any of the information, ideas, conclusions, or information, contained in this document.

Section 507: Right to Review Documents Prepared for Public Use

The Recipients shall provide the Department the opportunity to review and comment on any reports or other material prepared or assembled for distribution to the public under this Agreement prior to distribution to the public.

Section 508: Citizen Participation

The Recipients will take affirmative steps to encourage widespread citizen participation in planning and carrying out the Project.

Section 509: Future Support

The City makes no commitment of future support and assumes no obligations for future support or maintenance of the Project except as set forth in this Agreement.

Section 510: Reservation of Rights

Neither payment by the City nor performance by the Recipients shall be construed as a waiver of any party's right or remedies against the other. Failure to require full and timely performance of any provision at any time shall not waive or reduce the right to insist upon complete and timely performance of such provision thereafter.

Section 511: Severability

If any provisions of this Agreement other than those provided in Article II are held invalid, the remainder of this Agreement shall not be affected thereby if such remainder would then continue to serve the purposes and objectives of the contemplated project and the City.

Section 512: Termination of Agreement for Cause

- A. If, through any cause, the Recipients shall fail to fulfill their obligations under this Agreement in a timely and proper manner, or if they violate any of the terms or conditions of this Agreement, after written notice from the City specifying the nature of the failure and a reasonable time for cure, the Recipients shall be in "default". If the Recipients are in default, the City may terminate this Agreement by giving at least five (5) working days written notice of termination to the Recipients and specifying the effective date. If the City terminates the Agreement for default, the City shall have the rights to all Project-related documents and improvements completed as of the termination date as provided under Sections 505 and 506.
- B. Notwithstanding the above, the Recipients shall not be relieved of liability to the City for damages sustained by the City by virtue of any breach of the Agreement by the Recipients, and the City may withhold any payments to the Recipients for the purposes of set off until such time as the exact amount of damages due to the City from the Recipients is determined.

Section 513: Debarment

Under SMC Chapter 20.70, the Director of Finance and Administrative Services or designee may debar and prevent an organization or individual from contracting or subcontracting with the City for up to five years if the organization or individual:

1. Received overall performance evaluations of deficient, inadequate, or substandard performance on three or more City contracts;
2. Failed to comply with City ordinances or contract terms, including but not limited to, ordinance or contract terms related to woman and minority business utilization, discrimination, or other state, local or federal non-discrimination laws;
3. Abandoned, surrendered, or failed to complete or to perform work on or for a City contract;
4. Failed to comply with contract provisions, including but not limited to quality of workmanship, timeliness of performance, and safety standards;
5. Submitted false or intentionally misleading documents, reports, invoices, or other statements to the City in connection with a contract;
6. Colluded with another firm to restrain competition;
7. Committed fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a contract for the City or any other government entity;
8. Failed to cooperate in a City debarment investigation.

The Director or designee may issue an Order of Debarment under the SMC 20.70.050. The rights and remedies of the City under these debarment provisions are besides any other rights and remedies provided by law or under the Agreement.

Section 514: Repayment

In the event that the City determines any funds provided under this Agreement were misappropriated or not used in compliance with this Agreement, the Fiscal Sponsor shall reimburse the City such funds determined by the City to be due as a result of the misappropriation or non-compliant use.

Section 515: Termination for Convenience of City

The City may terminate this Agreement any time by a notice in writing from the City to the Recipients. If the Agreement is terminated for convenience by the City, the Recipients will be reimbursed for all valid and allowed expenditures incurred prior to the effective date of termination so long as the same are properly submitted as a Claim in the manner required under this Agreement within thirty (30) days of the effective date of termination. Title to any completed Project-related improvements, documents, or property shall be as provided under Sections 504 and 505.

Section 516: Termination of Agreement by the Recipients

This Agreement may be terminated by the joint agreement of the Recipients upon fifteen (15) days written notice if the City materially breaches its obligations under the Agreement through no fault of the Recipients. In the event of termination due to the breach of the City, the Recipients shall be paid compensation for services performed to termination date, including all authorized expenses then due and expenses directly attributable to the uncompleted portion of the services covered by this Agreement.

Section 517: Changes

Either party may request changes in the scope of services, performance, or reporting standards to be performed or provided under this Agreement. Any changes which are mutually agreed upon by and between the Recipients and the City must be incorporated in written amendments to this Agreement in order to be binding as specified under Section 202.

Section 518: Integrated Document

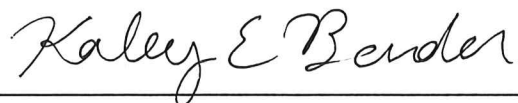

This Agreement, including all exhibits, embodies the entire agreement, terms and conditions between the City, and the Recipients regarding the Project and Project-related activities. No verbal agreements or conversation with any officer, agent or employee of the City prior to the execution of this Agreement shall affect or modify any of the terms or obligations contained in any documents comprising this Agreement. Any such verbal agreement shall be considered as unofficial information and in no way binding upon either party.

Recipients and the City may execute this Agreement in counterparts, which, taken together, constitute the entire Agreement.
